

## CLAIMS

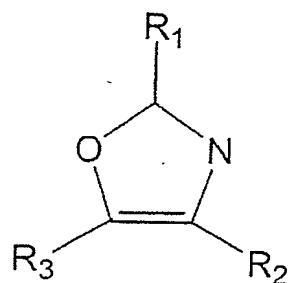

1. The cosmetic use of a composition containing at least one oxazoline, serving as an active substance, as a slimming product.  
5
2. The cosmetic use of a composition containing at least one oxazoline, serving as an active substance, for preventing and/or treating  
10 cellulitis.
3. The cosmetic use as claimed in either one of claims 1 and 2, characterized in that said oxazoline corresponds to the general formulae  
15 below:

Type 1

Type 2

Type 3

in which R<sub>1</sub> represents a linear or branched,  
5 saturated or unsaturated C<sub>1</sub>-C<sub>40</sub> alkyl group  
optionally comprising one or more ethylenic  
unsaturation(s) and also one or more  
substituent(s) chosen from the group formed by

hydroxyl (OH) and C<sub>1</sub>-C<sub>6</sub> alkoxy (OC<sub>1</sub>-C<sub>6</sub>) radicals; R<sub>2</sub>, R<sub>3</sub>, R<sub>4</sub> and R<sub>5</sub> represent, independently, a hydrogen atom, a hydroxyl radical, or a linear or branched, saturated or unsaturated C<sub>1</sub>-C<sub>30</sub> alkyl group optionally comprising one or more ethylenic unsaturations and also one or more substituent(s) chosen from the group formed by hydroxyl (OH), C<sub>1</sub>-C<sub>6</sub> alkoxy (OC<sub>1</sub>-C<sub>6</sub>) and C<sub>1</sub>-C<sub>6</sub> alkoxy carbonyl (COOC<sub>1</sub>-C<sub>6</sub>) radicals.

10

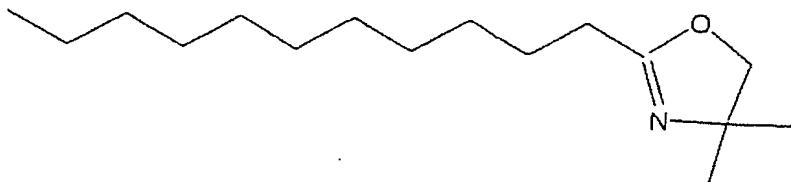

4. The cosmetic use as claimed in any one of preceding claims, characterized in that said oxazoline is a type 1 oxazoline selected from the group composed of 2-undecyl-4-hydroxymethyl-4-methyl-1,3-oxazoline, 2-undecyl-4,4-dimethyl-1,3-oxazoline, (E)-4,4-dimethyl-2-heptadec-8-enyl-1,3-oxazoline, 4-hydroxymethyl-4-methyl-2-heptadecyl-1,3-oxazoline, (E)-4-hydroxymethyl-4-methyl-2-heptadec-8-enyl-1,3-oxazoline and 2-undecyl-4-ethyl-4-hydroxymethyl-1,3-oxazoline.

15

20

25

5. The cosmetic use as claimed in any one of the preceding claims, characterized in that said oxazoline is 2-undecyl-4,4-dimethyl-1,3-oxazoline, called OX100, of formula:

30

6. The use as claimed in any one of the preceding claims, characterized in that the composition comprises between 0.01 and 10% by weight of oxazoline, advantageously between 0.01 and 3% by weight of oxazoline, relative to the total weight

of the composition, and a cosmetically acceptable medium.

7. The cosmetic use as claimed in any one of the preceding claims, characterized in that one or more oxazolines and also one or more slimming active agents of lipolytic type and/or one or more slimming active agents of liporeducing type are applied simultaneously, separately or spread out over time.
8. The use as claimed in any one of the preceding claims, characterized in that one or more anti-infiltration and/or venotonic active agents are also applied simultaneously, separately or spread out over time.
9. The cosmetic use as claimed in any one of the preceding claims, characterized in that the composition is for topical application.
10. A cosmetic treatment method for promoting slimming, characterized in that a cosmetic composition containing one or more oxazolines is applied topically.
11. A cosmetic treatment method for preventing and/or treating cellulitis, characterized in that a composition containing one or more oxazolines is applied topically.
12. A cosmetic treatment method for slimming down the figure, accelerating the removal of excesses, and better defining the bodyshape and/or reshaping the figure, characterized in that a composition containing one or more oxazolines is applied topically.

13. The cosmetic treatment method as claimed in any one of claims 10 to 12, characterized in that one or more oxazolines and also one or more slimming active agents of lipolytic and/or liporeducing type and/or one or more anti-infiltration and/or venotonic active agents are applied topically to the areas of the skin liable to form localized excess weight, simultaneously, separately or spread out over time.
